

# Calibration Sheet

## Product Information for Superbolt Tool

Power Cassette: **SBT-PC02-ø96n12-SW14-spc**

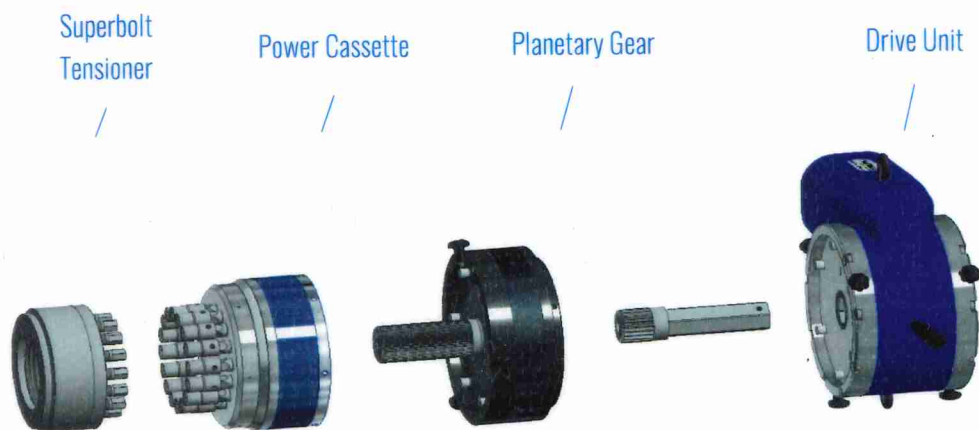

Part no. **2010232716**

Drive Unit: **SBT-DU02**  
Planetary Gear? **YES** **2010232717**

Part no. **2010214659**

related to Superbolt tensioner: **SB8-M80x4x298/W-spc**  
part no. **2010232703**

|                                 | Preload #1           | Preload #2 |
|---------------------------------|----------------------|------------|
| Preload target value            | <b>1'570</b> kN      | -          |
| Jackbolt torque for checking    | <b>250</b> Nm        | -          |
| Input tool                      | <b>LION GUN .125</b> |            |
| Input torque                    | <b>62</b>            | -          |
| Drive unit side for tightening: | <b>1</b>             |            |
| Drive unit side for loosening:  | <b>2</b>             |            |
